

Congratulations to

Thermal Edge Inc.

TEMPERATURE CONTROL SOLUTIONS FOR ELECTRICAL ENCLOSURES

**FOR FOUR CONSECUTIVE YEARS OF
BEING NAMED TO THE INC. 5000 LIST OF
AMERICA'S FASTEST GROWING PRIVATE COMPANIES**

Now in its sixth year, the Inc. 5000 is the most comprehensive portrait of America's fastest-growing private companies assembled anywhere. Each profile is reported by one of the dozens of writers assigned to the project. Many firms are innovators with little coverage elsewhere; many others are using their cutting-edge savvy to grow their market share in traditional products and services, and are similarly underreported by the rest of the business media. The Inc. 5000 profiles are available on

THERMAL EDGE INC. No. 4281

65% THREE-YEAR GROWTH

2013 REVENUE: \$8.7 MILLION EMPLOYEES: 44

CEO: ANDREW COHEN FOUNDED: 2006

IRVING, TX www.thermal-edge.com

Manufactures electrical enclosure temperature control equipment such as air conditioners and heat exchanges to be mounted on large metal enclosures in industrial, food, transportation, water and waste water environments.

MADE IN THE USA

In the company's own words: When designing and manufacturing Thermal Edge equipment, we take a different approach.

One of our core beliefs is that our industrial enclosure air conditioners must be feature-rich and offer the customer superior benefits. While our competition has been around longer, we believe that our superior design and full-featured products provide the customer a compelling reason to look past their existing supplier.

We like to say that every one of our customers purchased somebody else's enclosure air conditioner the last time they needed one. This understanding forces us to design and manufacture a product that exceeds our customer's expectations both in design and quality. This drives us from the very beginning of every unit's design to make sure we allow for all of the important standard equipment that makes an enclosure air conditioner... a Thermal Edge Enclosure Air Conditioner.

This desire to build superior equipment carries through to how we service and support our customers. We understand that our customers do not want to leave a voicemail and wait for a return call. Most often, they do not want to correspond by email. When they call Thermal Edge, they want to speak with a knowledgeable and responsive sales or technical representative. We work diligently to answer the questions and provide the information requested of us.
